Recent Computer Engineering graduate with a strong interest in information technologies. I aim to continuously improve myself in system administration, network structures, and software technologies. I am seeking to expand my expertise in cybersecurity, robotics, and artificial intelligence. I am a curious, eager learner who enjoys teamwork. I previously contributed to an AI model development project through search engine quality evaluation.

PERSONAL INFO

Date of Birth: 17/11/2001
Marital Status: Single
Military: Completed
Nationality: TC & EU Citizen
Place of Birth: Istanbul
Driver License: B (2021)

LANGUAGES

English
C1 – Advanced
Turkish
Native

CERTIFICATES

Game Developer Training
Istanbul Chamber of Commerce –
SoftiTo Software & IT Academy
2023
Data Analysis School: AI & Machine Learning
Organized with Marmara, METU,
Boğaziçi & ITU – 7-month online
program
Oct 2025 – May 2026

EXPERIENCE

Gini Talent Sep 2024 – Aug 2025
Search Engine Quality Improvement Specialist | Remote
Responsible for evaluating and improving the results of an industry-leading search engine in terms of accuracy and reliability. Also contributed to AI model training through English-Turkish language data annotation tasks.

BIOS Elektronik 2022
Intern | Istanbul
Basic electronics knowledge, component identification, measurement and testing. Device programming (PIC flashing), configuration and device testing.

EDUCATION

Tekirdağ Namık Kemal University 2020 – 2024
B.Sc. Computer Engineering | GPA: 3.39 / 4.00

Mimarsinan Okyanus Koleji
Anatolian High School –| 96.87

PROJECTS

Personal Infrastructure Project (Home Lab) 2026
Built a scalable web infrastructure on a Linux virtual server with secure SSH access. Dockerized a Node.js application and deployed it as 3 containers using Docker Compose. Configured Nginx as a load balancer for incoming traffic. Secured communication with SSL/HTTPS and set up monitoring and logging for continuous performance tracking.
